

Batteries for Trucks, Buses, Construction, Agriculture

Polarity

The top view of the battery pack shows a central rectangular area with two diamond-shaped markings. The pack is surrounded by a frame with four circular terminals on each side. A large plus sign (+) is on the left, and a large minus sign (-) is on the right, indicating the polarity of the terminals.

Terminal Type

Two detailed views of the terminals are provided:

- Positive Terminal:** A trapezoidal terminal with a top diameter of $\varnothing 17.5$ and a height of 17. The base diameter is 3.8 - 16 UNC.
- Negative Terminal:** A trapezoidal terminal with a top diameter of $\varnothing 15.9$ and a height of 17. The base diameter is 5.18 - 16 UNC.

Hold Down

Two views of the hold-down mechanism are shown. The left view is a side profile showing a series of small, evenly spaced, rounded protrusions along the bottom edge. The right view is a top-down view showing the same series of protrusions arranged in a row.
