## Commercial Vehicle and Marine & Leisure ranges - product type discontinuations

Dear customer,

We would like to inform you about the changes that have occurred to our product offerings for the Commercial Vehicle and Marine & Leisure ranges.

Within March and April 2025, the production of certain battery types from both ranges has been discontinued. A complete list of affected products can be found in the table below. The products will remain open for sales until the current stock will be sold out.

This decision is a part of our commitment to enhancing operational efficiency and supporting our sustainable development initiatives. By phasing out these products, we aim to further improve the environment, health & safety (EHS) conditions in our plants and at the same time streamline our production and supply processes.

For your convenience, please see the table below for the potential equivalents and upgrades.

### List of discontinued products

Short Code	Commercial Vehicle	Brand	Equivalent or upgrade
SX1803	EndurancePRO EFB	SONNAK	SE1853
CX1803	EndurancePRO EFB	CENTRA	CE1853

ET650	Equipment	EXIDE	ES900/ EQ800

We apologize for any inconveniences this may cause and appreciate your understanding and support during this transition.

For any question, or if you need consultation to replace the obsolete battery types, or get more information about equivalent or upgraded products, please contact your Exide sales representative.

Thank you for your continued partnership.

Yours sincerely,

**Exide Technologies Team**
