

TUBULAR LMX[®]

LOW MAINTENANCE MOTIVE POWER BATTERIES

THE TUBULAR LOW MAINTENANCE ADVANTAGE

The redesigned GNB[®] Tubular LMX[®] batteries allow up to 90 days between watering intervals for increased run-time and decreased maintenance costs. Engineered for superior performance, GNB's round-tube design is more efficient than other technologies utilizing less efficient square-tube technologies. The Tubular LMX product line delivers up to 125 Ah per cell and includes a 90 Ah standard electrolyte cell that fits within the 23.3" size. Trust Tubular LMX to keep your business moving forward—so you can focus on the things that really matter.

Heavy Duty

TUBULAR LMX[®]

LOW MAINTENANCE MOTIVE POWER BATTERIES

- Low Maintenance 90-day watering interval
- Engineered for premium heavy duty performance
- Enhanced grid design for increased energy efficiency
- Increased positive spine diameter for longer life and greater efficiency
- Improved separator technology for added vibration protection
- Superior gauntlet design ensures plate and active material integrity
- Improved electrolyte ratio for longer maintenance intervals
- Best when charged with GNB[®] Industrial Power chargers
- Approved for opportunity and fast charging applications

IT IS SIMPLE GEOMETRY

CIRCLES ARE MORE EFFICIENT THAN SQUARES

- ELECTRON
- SPINE
- EXIDE TUBULAR DESIGN
- COMPETITIVE SQUARE DESIGN

When it comes to improved performance, a CIRCLE is better than a SQUARE.

Some manufacturers lead you to believe that an increase in surface area means added power. This is really only a small part of the story. The electrons in a square-tube design have further to travel, which can result in increased resistance and voltage drop. GNB's round tubular technology is engineered for maximum efficiency by creating the shortest path possible. This results in higher voltage, longer run-time, and improved efficiency.

RECYCLE WITH EXIDE

EXIDE TOTAL BATTERY MANAGEMENT (TBM)

Exide is one of the largest secondary recyclers in the world, and one of the few companies with the ability to provide Total Battery Management, helping to divert batteries from the waste stream by returning the recycled materials to new products. Our commitment to recycling and environmental responsibility is unwavering.

FIND THE RIGHT BATTERY

Check out our new on-line battery finder application. Scan this QR code with your smart device. This new tool will also help you select the right battery and charger pairing for your application.

TUBULAR LMX[®] DATA:

TYPE	Ah	HEIGHT (without cover)	HEIGHT (with cover)	PLATES
90L	90	22.6"	23.3"	5-33
100L	100	25.6"	26.3"	5-33
125L	125	30.5"	31.0"	5-25

THE TUBULAR 5 + 1 WARRANTY DIFFERENCE

Power and performance are two things you can count on with Tubular batteries. Not only do our batteries come with unparalleled service and support, they are also backed by our 5+1 warranty offering. Trust GNB's Tubular batteries to power your business forward.

For longer life and optimal performance, pair your Tubular batteries with GNB Industrial Power chargers.

POWERING THE WORLD FORWARD
