

MARATHON®

Exide Marathon, powered by EFB (Enhanced Flooded Battery) technology, is engineered to significantly improve charge acceptance and increase cycle life to ensure ample power for vehicle safety and entertainment features.

EXIDE MARATHON EFB

Features and Benefits

- A** **LifeGrid™ Technology** are calcium/lead alloy punched-grid plates that provide maintenance-free performance, consistent power and enhanced durability.
- B** **Reinforced Pasting** using glass veil technology to provide extra plate protection for increased cycle life.
- C** **SureLife® Graphite Technology** provides greater dynamic charge acceptance by strengthening and maintaining charge pathways for faster recharge.
- D** **ErgoLock™ manifold cover** provides 2x better venting* and superior leak resistance with centralized vent ports that prevent acid leakage up to a 45 degree tilt.
- E** **ErgoLock™ handle** is a full-grip ergonomic design that neatly lies flat within the cover and can carry up to 3x the battery weight.

EFB Enhanced Flooded Battery

Added Heat Protection
